

Appointed by Board to fill unexpired terms. Confirmation only needed, not election

Confirmation needed

Secretary:

BONNY WEIL

In a nutshell, my experience includes running a construction company for 15 years, writing contracts, keeping schedules, doing drawings, managing multiple simultaneous projects and all that entails. Add to that another 10 years of project management prior to starting my own company. I'm very organized.

Outside of the construction experience I served as a board member on my homeowners association in California for several years.

At-Large Director:

IAN HAWLEY

I am interested in completing the term in the pending vacant director at large position. I believe I am qualified and motivated to contribute to the well being of the OLL.

I have been a member of the OLL for 12 years and have volunteered on the front desk, chaired two Nominating Committees, wrote the NC handbook, made a fund raising presentation (food and wine pairing - I am a certified sommelier), and more.

Career wise, I was a senior economist with the Government of Canada, so am conscious of budget constraints and opportunity costs. I was a volunteer bookkeeper for a Vancouver charitable organization. To round things off, I was a deckhand in a Pacific coast salmon trolling fleet, taxi driver, waiter, Gestalt counselor for teens with the Government of British Columbia (5 years), and sessional instructor of a third year economics course at Carleton University.

I am a team player who respects process and creative thinking.

I am keen to give back to an OLL that has so enriched our lives. In fact, the OLL-centered community was a big factor in our decision to move here, so I highly value the opportunity to give back.
